

General Meeting 20 September 1962

Lakehead Amateur Radio Club

This, our first meeting after a summer holiday, was called to order at 8:15 pm in the basement of the Civil Defence Building with Doug Hall - VE3TB acting as President in the absence of Bill Blennerhassett - VE3AGA.

The minutes of the June meeting were read and adopted (*on a motion*) by Don Brown - VE3EDJ and seconded by Frank Start - VE3AJ.

The first item discussed was methods to make meetings more interesting in order to get a better attendance. Don Brown - VE3EDJ said he would try and make arrangements for us to visit the Air Port control tower. A visit to the mill and the TV station was suggested for following meetings.

We then talked about our affiliation with A.R.R.L. and decided to try and get some slides again. Previous attempts to get them proved unsuccessful. The ones asked for were: "A.R.R.L. Headquarters Then and Now" and second choice was "The First Thirty Years of Amateur Radio". It was agreed that the Secretary, Roy Lindenhoff - VE3EEG, see what he could do about this.

We then had introduction of the members, everyone had abundant activities to talk about, such as, a local Two Metre Net being a possibility, and pros and cons of SSB etc.

We then had a motion of adjournment by Frank Start - VE3AJ which was seconded by Fred Lawrence - VE3EET at 9:45 pm.

Following this was our coffee and doughnut break which lasted till about 10:45 pm.
